

Contract Behavioral Health Teletherapist

Tri County Health Network is looking for English and bilingual in English and Spanish, behavioral health teletherapists to provide high quality, compassionate and ethical outpatient mental health therapy for students from several rural Colorado school districts, with the potential to expand services to adult clients. Therapists, operating as independent contractors, will treat clients via live HIPAA compliant videoconferencing, using the same techniques and approaches as traditional in-person therapy. The online solution includes high-fidelity audio and video for live interactions, scheduling tools, and will allow therapists to work with clients to solve on-going behavioral health concerns.

DUTIES AND RESPONSIBILITIES:

May include the following, and other duties as assigned.

- 1) Utilize a variety of treatment approaches to work with a diverse population of children, adolescents, families, and adults.
- 2) Conduct client screenings and diagnostic assessments.
- 3) Work with clients to identify treatment goals and objectives.
- 4) Maintain accurate and timely clinical records consistent with TCHNetwork standards.
- 5) Communicate with primary care and/or behavioral health staff as appropriate and necessary to ensure continuity of care.
- 6) Use scheduling software for follow-up client services.
- 7) Maintain good standing with the appropriate board and insurance entities.
- 8) Stay current with updated research and best practices.
- 9) Be aware of community referral sources and refer to outside providers when necessary.
- 10) Maintain client confidentiality including securing client information per HIPAA standards.

Location: Telecommuting position.

Compensation: \$40 an hour

To Apply:

Please submit your *cover letter and resume* to info@tchnetwork.org with the title of the position in the subject line.
